Pro Travel Network's Referring Travel Associate program is the premier travel referral program in the Industry. This program is designed for those who desire to earn money on the booking of travel, by simply referring clients to Pro Travel Network. Professional and experienced Staff Agents will handle all communication, research, booking, accounting, and ticketing, while the RTA earns a full 50% of the received commission on completed bookings. This is truly a one of a kind program allowing the RTA to focus on simply getting as many qualified leads as possible into his database of potential clients.

Every new RTA will gain immediate access to Pro Travel Network's Client Relations Management (CRM) System, allowing them to promote various travel related activities and specials to leads they have entered in the system. Each RTA will have full access to the CRM Dashboard, Profiles, Email system, and Reporting sections. As an RTA's prospective clients begin to express interest in booking a trip, a simple request is sent and an experienced agent will then take over and facilitate the booking process from start to finish.
